

# DermaLevin™

## Adhesive - Waterproof Foam Dressing

### Uses:

- Manage chronic and acute wounds
- Low to moderate exuding, partial and full thickness wounds
- Stages 2,3 and 4
- Lower extremity ulcers

### Comparable to \*Allevyn Adhesive, \*\*Tielle Adhesive

- ▶ Maintains a moist wound environment
- ▶ Absorbs four times more than hydrocolloids
- ▶ Stays in place — fewer changes
- ▶ Will not adhere to wound bed
- ▶ Semipermeable polyurethane film

**LATEX FREE**
